SMITH COLLEGE CORE REQUIREMENTS

The Smith College Core Requirements are courses that build a foundation for your academic life, as well as personal growth and development at college.

Each major at HBU may have its own Smith College core requirements. If you are exploring majors and careers, concentrate on taking courses from the following areas: Christianity, communications, computer information systems, fine arts, humanities, behavioral sciences, or kinesiology. These courses will apply toward any degree plan at HBU.

Spend some time during your first two years of college investigating fields of interest, majors and careers. Career counseling and assessment services are available through the Enrichment Center. Your advisors or Enrichment Center staff members are available to assist you in discovering your strengths, skills, abilities, talents and gifts in selecting majors and pursuing a career.
