CLASS POLICIES

Attendance. Attendance is of vital importance with the only acceptable excuse for absence being an emergency over which the student teacher has no control. In case of absence, the student teacher must notify the principal's office and teacher prior to the time school begins on the day of the absence. The university supervisor and Director of CPPE must also be notified. All days missed must be made-up at the end of the semester.

Email Policy*. All university and class email communication will be sent to your HBU email account. You are responsible for checking this frequently. If you choose, you may reroute your HBU email to another email address. Your emails should be in a professional format with correct spelling, capitalization, and grammar.

Termination of Clinical Teaching Assignment

The clinical teaching program is a cooperative relationship between Houston Baptist University, cooperating school districts, Cooperating Teachers, and the clinical teacher. Each student teacher should be aware that his/her presence in the district and in a particular classroom is that of a guest. Occasionally, there are circumstances which warrant the termination of the clinical teaching experience of a student. When such action is deemed necessary, there are specific reasons and procedures that should be taken into consideration by all parties involved.

Reasons for Termination:

1. Mutual consent and agreement for termination by the clinical teacher, cooperating school, and University Supervisor for reasons of illness, injury or other unforeseen problem.
2. Failure by the clinical teacher to establish and maintain a satisfactory performance level in classroom instruction and management.
3. Failure by the clinical teacher to abide by the policies of the cooperating school.
4. Unprofessional conduct toward school personnel or students.
5. Failure to adhere or comply with Texas Professional Code of Ethics for Teachers

Procedures for Termination:

1. The clinical teacher shall be informed by the Cooperating Teacher and University Supervisor of any unsatisfactory performance. This shall be done through written evaluations, personal conferences and written documentation of any infractions of school policy or professionalism.
2. If the infraction is deemed severe enough, termination of the clinical teacher placement may occur at this point. Otherwise, formal written suggestions for improvement will be given to the clinical teacher by the University Supervisor.
3. After an appropriate time period, if the suggestions for improvement have not been implemented, action will be taken by the Director of Clinical Teaching and Field Experience in consultation with the Dean of the School of Education. The clinical teacher's placement may be altered, or the clinical teaching placement may be terminated and a failing grade assigned.
4. If termination occurs, the clinical teacher will be notified in a written letter stating the decision, the reasons for that decision, and whether or not an opportunity for application to clinical teach again at a later date will be permitted.

Appeal Procedure:

If the clinical teacher wishes to contest the decision to terminate the assignment, he/she must first appeal through the office of the Dean of the School of Education following appropriate appeals protocol. Further appeal can be made to the School Faculty Standards Committee.

Students are required to read the University Classroom Policy addendum to this course syllabus that is included on Blackboard. In addition to the class policies listed here, it includes basic class policies that apply in all HBU classes.

Professional Integrity Statement

To maintain and uphold the highest level of professional integrity and honesty, cheating and plagiarizing are not allowed. . If a student cheats and/or plagiarizes, then the student will receive a “0” for the assignment and/or fail the course

Cheating is a catch-all term for not doing your own work. Any attempt during a test to consult with notes or another person or to look at another’s test constitutes cheating. If answers are shared in any way, both students will receive the same penalty for cheating. Using stolen tests or “borrowed” tests (any test that is not readily available to all members of the class) to study for an exam is cheating. Within the broader view of cheating is the idea of using someone else’s work in place of your own. This is called plagiarism and is not allowed.

DO NOT:

- copy another person’s paper/project/work or part of that and turn it in as your own;
- copy a paper/project from the Internet and turn them in as your own;
- copy another paper/project (or cut and paste parts of Internet articles), make changes to it, and submit it as your own;
- include the work of others without documentation/reference (If seven or more words are taken directly from another source it must be quoted and referenced.);
- submit a paper/project or large parts of a paper/project you have done for another class at HBU or another institution to this class. (Always get a professor’s approval before using a prior work or topic from a different class.);
- have someone write parts or all of your paper/project/work
- share your work with others; and,
- change references or make up references.
- falsify fieldwork documentation
